## Introduction to JROTC of Christian Schools

The Junior Reserve Officers' Training Corps of Christian Schools (CJROTC) Program serves to develop informed and responsible citizens as well as a deep sense of pride and character in high school students. It is a unique program that stresses the learning of leadership skills that will enhance the lives of the young teenagers males and females who participate.

In order to fulfill its mission, the JROTC Program of Christian Schools seeks to teach and instill the following:

- EVERY CADET IS TAUGHT:  
CHARACTER EDUCATION, BEARING, UNSELFISHNESS, STUDENT ACHIEVEMENT, DISCIPLINE, ORGANIZATION WELLNESS, LEADERSHIP, JUDGMENT, JUSTICE, LOYALTY, DIVERSITY, and DECISIVENESS.  
INSTILLED IN EACH CADET IS SELF- MOTIVATION, INITIATIVE RESPONSIBILITY, COURAGE, WELLNESS, LEADERSHIP, LOYALTY, INTEGRITY, GOAL-SETTING, TEAM WORK, AND DIVERSITY.

Our partnership with schools across The United States. is a Phenomenal Leadership Education Program meant solely to develop character and citizenship, and simply make better all around individuals. Of Course, our a comprehensive learning environment anchored in a military structure is not for all students, there is a body of defendable academic knowledge that clearly articulates the significant benefit to those students that do choose to participate. The JROTC Curriculum was the first to be nationally accredited under AdvancEd and is directly linked to National Standards. Responding to local challenges, JROTC programs can be implemented in any one of several configurations to include a traditional model, cluster, school within a school, and the stand-alone academy.

In a private school environment of fiscal challenges, many Schools and School Boards find a partnership with the CJROTC Program is a cooperative relationship attractive, allowing them to provide more curricular and extra curricular options in which are not so to say "throw away classes" the JROTC program provides high schools credits to each student who takes the classes yearly. The JROTC Program of Christian Schools, and Hosting Schools both share common and unique expectations. Your CJROTC Program will be expected to not only excel during the school day but also maintain vigorous extra curricular drill team supporting the Program of Instruction (POI) and being active in community activities/events. School support for the JROTC Cadets and their activities is expected to be on par with support given to other like activities within the hosting school.

Each hosting school is contractually obligated to execute the program as intended and reflected in the DOD-Department of Defense-military services' POI, provide the facilities and support agreed to, and maintain minimum numbers of qualified participants. Here at the JROTC of Christian Schools Program our door is always open to discuss concerns that may reflect the ever-changing social context of public education. We are not averse to changes in contractual agreements when mutually agreed to. With the same degree of resolve, however, we maintain the expectation that the contractual obligations of both parties under the public law will be fulfilled and that the execution of the JROTC Program of Christian Schools POI will be as directed and that facilities and other support arrangements are provided as intended.

Please feel free to contact us to discuss possible partnerships. I encourage you to apply for a CJROTC unit.

Sincerely,  
GySgt. Wilson, Dion\_USMC  
Director, JROTC Program of Christian Schools
